

## **Universal Truckload Services, Inc. (“Universal”) selected as an Inbound Logistics Magazine Top 100 3PL**

**PRESS RELEASE – July 2013**

**Universal Truckload Services, Inc. (“Universal”)** is proud to announce that we have been chosen as one of the Top 100 3PL’s for 2013 by Inbound Logistics Magazine (as featured in the July 2013 issue).

### **Quote from Felecia Stratton, Editor, Inbound Logistics**

How a logistics solutions provider enables scalability for its customers is a key factor in the editors’ Top 100 3PL selection process. In today’s economic climate, 3PLs must produce direct savings for customers by optimizing the transport network, reducing inventory-to-sales ratios, or advancing the order- to-cash cycle. But it’s just as important for a logistics partner to act as a business change agent, driving their customers’ ability to match demand for their products more closely to supply, aligning enterprise operational performance to the larger economic trend. That is what Universal Truckload Services, Inc. (“Universal”) does, and why we are happy to recognize it as a 2013 Top 100 3PL.

### **TOP 100 Selection Methodology**

Inbound Logistics' Top 100 3PL Provider's list serves as a qualitative assessment of service providers we feel are best equipped to meet and surpass readers’ evolving outsourcing needs. Distilling the Top 100 is never an easy task, and the process becomes increasingly difficult as more 3PLs enter the market and service providers from other functional areas develop value-added logistics capabilities. Each year, Inbound Logistics editors select the best logistics solutions providers by carefully evaluating submitted information, conducting personal interviews and online research, and comparing that data to our readers’ burgeoning global supply chain and logistics challenges. IL editors selected this year's class of Top 100 3PLs from a pool of more than 300 companies. The service providers we selected are companies that, in the opinion of IL editors, offer the diverse operational capabilities and experience to meet readers' unique supply chain and logistics needs.
